Technical data sheet

**drapilux A3**

A3 is an acoustic cube made of cellulose-like composite material with fabric cover. All side parts of the body are perforated and covered with acoustic fleece on the inside. A3 is easy to assemble by means of integrated magnets in the flaps. Stability is achieved by an internal grid construction.

**Fabric selection**

**drapilux article 102**
- Intelligent functions flammstop, air and bioaktiv
- 100 % Polyester (TexKennzVO (EU))
- Flame retardancy corresponds to DIN 4102 B1
- Cleaning recommendation:
  - Rest shrinkage at 60 degrees: ca. 1-2 %
  - Light resistance (ISO 105/B02): Grade 5-6
  - Washing resistance (ISO 105/C01): Grade 3-4
  - Oeko-Tex Standard 100: A96-0071 (Hohenstein)

**drapilux article 109**
- Intelligent functions flammstop, air
- 100 % Polyester (TexKennzVO (EU))
- Flame retardancy corresponds to DIN 4102 B1
- Cleaning recommendation:
  - Rest shrinkage at 60 degrees: ca. 1-2 %
  - Light resistance (ISO 105/B02): Grade 5-6
  - Washing resistance (ISO 105/C01): Grade 3-4
  - Oeko-Tex Standard 100: A96-0071 (Hohenstein)

**Sound absorption:**
Depends on the respective room situation and can be determined in a consultation.

**ATTENTION:** The acoustic cube is not a seating furniture.

Status March 2020
